Regulatory Support Centre news:

General Data Protection Regulation (GDPR) – Preparations for implementation

The MRC Regulatory Support Centre will shortly release another guidance note to help researchers and research governance leads prepare for the implementation of GDPR. The new guidance note, as well as the most up to date versions of guidance notes 1 and 2, can be found in 'News' at: <http://www.mrc.ac.uk/regulatorysupportcentre>.

Managing GDPR in the academic research sector

This event for Research Governance leads/managers and Data Protection Officers will be held in the **Friends Meeting House, London on Thursday 8th March 2018**. [Eventbrite](#) provides further details about the day.

The Research Advisory Group - Bringing the health research community together

The MRC Regulatory Support Centre and others have been working with NHS Digital in the [Research Advisory Group](#) with the aim of helping NHS Digital improve its data and services for researchers.

Next Translational Project Managers Forum

Due to GDPR work commitments we have with regret, decided to cancel the next Translational Project Managers Forum (which was due to be held on Wednesday 2nd May 2018). The next Translational Project Managers Forum will now be held in November, more details will follow.

The changing regulatory landscape

EU Regulations

General Data Protection Regulation - GDPR will come into force in the EU (which will include the UK) on 25 May 2018. Meanwhile the Data Protection Bill is continuing its progress through parliament, and was presented to the House of Lords for a third reading on 17 January 2018.

For further guidance on the relationship between GDPR and the Data Protection Bill and how these two pieces of legislation will form the UK's future Data Protection law, please see the [ICO's Data Protection Bill webpage](#). For further information on the research aspects of GDPR, please see the [HRA briefing notes](#).

EU regulations on medical devices and in vitro diagnostic medical devices – In November 2017, the European Commission announced implementing measures for the Regulations. For further details please see 'Implementing measures for Regulations' on the [EC website](#).

Clinical Trials – The EU Clinical Trial Regulation will now likely come into application in the second half of 2019. Development of the EU portal is progressing but still requires close monitoring. The EMA will provide further information on timelines after an audit which will be carried out in 2018. For further details, please see 'Update' on the [EMA website](#).

We'll keep you informed of further developments on the [RSC website](#).

Regulatory Support Centre training courses

To book a place on any of the following courses, please contact us on info@rsc.mrc.ac.uk.

Date	Course	Location
31 Jan 2018	GCP for non-trialists	University of Liverpool
6 Mar 2018	Consent and transparency	LEU, Southampton
14 Mar 2018	Consent and transparency	WTCRF, Edinburgh
