

MRC Doctoral Training Partnership Allocations 2016-2020

Lead RO (in alphabetical order)	Partner ROs	MRC notional students ¹ awarded per annum (2016 - 2020 intake years)	Research Themes supported by the DTP
Cardiff University	University of Bristol, University of Exeter, University of Bath	13	<ul style="list-style-type: none"> - Neuroscience and Mental Health - Infection, Immunity and Repair - Population Health
Imperial College London	-	11.5	<ul style="list-style-type: none"> - Informatics for Health - Experimental Medicine - Infection and Anti-Microbial Research
Kings College London	-	12	<ul style="list-style-type: none"> - Molecules, cells and the Basis for Disease - Neurosciences, Psychiatry and Mental Health - Physiological Medicine - Imaging and biomedical Engineering
Liverpool School of Tropical Medicine	University of Lancaster	5	<ul style="list-style-type: none"> - Translational and quantitative research with focus on Global Health: <ul style="list-style-type: none"> - Basic Science, - Human evidence-based research, - Evidence-based guidelines to health practice, - Health practice to population health impact.
London School of Hygiene & Tropical Medicine	St George's University of London	7.5	<ul style="list-style-type: none"> - Global Infectious Diseases - Quantitative Skills for Large Data Sets - Evaluating Complex Interventions
The University of Manchester	-	9	<ul style="list-style-type: none"> - Understanding mechanisms of disease - Early detection /diagnosis - Development and implementation of therapeutic interventions around: <ul style="list-style-type: none"> - Inflammation; - Immunobiology and Repair; - Neuroscience and Mental Health; - Cancer
University College London	Birkbeck College	22	<ul style="list-style-type: none"> - Fundamental mechanisms of disease - Experimental and personalised medicine - Neuroscience and mental health - Populations, people and data across the lifecourse
University of Birmingham	University of Leicester, University of Nottingham	7.5	<ul style="list-style-type: none"> - Imaging: Molecules to Man - Complex Diseases: Cells to Systems - Precision Medicine: Pathology to Population Health
University of Cambridge	Babraham Institute	10	<ul style="list-style-type: none"> - Industrial or translational research focusing on: <ul style="list-style-type: none"> - Population and Systems Medicine - Infection and Immunity - Molecular and Cellular Science - Neuroscience and Mental Health
University of Dundee	-	5	<ul style="list-style-type: none"> - Infection and Disease - Responses to Cellular Stress - Development, Stem Cells and Neurobiology - Big data and translation
University of Edinburgh	University of Glasgow	13	<ul style="list-style-type: none"> - Precision Medicine
University of Oxford	-	18	<ul style="list-style-type: none"> - Infection and Immunology - Neuroscience - Cancer - Population Health, Genomics and Genes
University of Sheffield	University of Leeds, University of Liverpool, Newcastle University	12	<ul style="list-style-type: none"> - Genetic Influences on Health - Ageing and Disease - The best treatment for every patient
University of Southampton	Queen Mary, University of London	5	<ul style="list-style-type: none"> - Translational Immunology: <ul style="list-style-type: none"> - Cancer Immunology and Chronic Inflammation
University of Warwick	-	5	<ul style="list-style-type: none"> - Quantitative Cellular Dynamics (QCD) and Molecular Microbiology (MM)

1. A 'notional studentship' is set at the equivalent of a 3.5 year studentship, based on Research Councils UK minimum stipend and support levels.
