

UK Stem Cell Line Registry- UK

The Steering Committee for the UK Bank and for the Use of Stem Cell Lines must satisfy itself that the stem cell lines used in the UK have been ethically sourced with informed donor consents. The register below lists human embryonic stem cell lines that have been approved by the Steering Committee for import/use in the UK. Researchers wishing to use/import these cell lines must apply to the Steering Committee for approval of their project and are expected to comply with the Code of Practice for the Use of Stem Cells Lines

Name of Cell line	Owner	Available via UKSCB	Bank Accession no.	SCSC App No.	Research* or Clinical Grade?	Comments
CB660	University of Cambridge	Received	R-08-035	SCSC08-25	Research Grade	Unable to recover UKSCB stock.

-------	--	----	---	-----------	----------------	--

Research Grade = cell line can only be used for research purposes

Clinical Grade = cell line has been approved by Regulatory Authority for clinical purposes

Received/MDA negotiation/Awaiting QC = Available following accession & banking by UKSCB

Awaiting QC* = awaiting QC following re-banking.

Due diligence=MDA agreed &UKSCB assessing whether they meet the requirements for depositing & banking as EUTCD-compliant cells
